**Summary of reasons
for classification:**

The publication entitled *Champagne Picnic Part 1* is classified as:
Objectionable.

The publication is a DVD entirely focused on women urinating. All instances of urination are clearly presented in a manner which is designed to be sexually titillating to the viewer. The publication therefore validates this conduct as being arousing and part of normal sexual activity. Consequently the publication promotes and supports the use of urine in association with sexual conduct.

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification of these publications interferes with the freedom of expression, but this is an outcome that reflects parliament's intention to restrict the availability of publications that promote and support the use of urine in association with sexual conduct.
